

ORIS TRACC

ORIS
FIX4BIKE

NOW EVEN BETTER!

Introducing the new improved versions of our bike carriers
ORIS TRACC V2 & ORIS TRACC FIX4BIKE® V2.

More stability:
thanks to reinforced ratchet levers.

More application possibilities:
Now with longer frame retaining straps – for almost all frame geometries and diameters.

More comfort and stability:
Improved extension angle of the ratchet strap and a reinforced ratchet lever for the tyre holders.

More security:
New lever on the clamp fastener of the carrier increases the stability of the standard clamp.

Simply store:
New transport bag that offers easy handling and more space thanks to the full-length Velcro fastener. This is how the 3rd wheel extension cannot be dismantled.

More support:
Reinforced carrier platforms and additionally reinforced magnets integrated in the carrying handle keep the carrier optimally folded.

More visibility:
Thanks to the optimised position of the wheel extension lighting and number plate even more recognisable.

High compatibility and stability:
The new number plate holder is now even more stable and is suitable for all standard licence plates.

Takes on everyone:
The 3rd wheel extension can now be adjusted for the transport of children's bicycles.

Everything is easy:
The tyre holders remain in the selected position and make it easier to secure tyres and rims.

ORIS TRACC V2 & ORIS TRACC FIX4BIKE® V2

Technical data

Max. number of bikes	2 (expandable to 3)
Max. number of e-bike	2
Own weight	16,9 kg ⁽¹⁾ / 18,4 kg ^(1,2)
Max. load capacity	60 kg ⁽³⁾
Max. weight, 1st and 2nd bike	30 kg
Max. weight, 3rd bike	20 kg
Distance between rails	230 mm
Suitable for frame diameters	25–80 mm / 80+ mm ⁽⁴⁾
Carrier lockable on vehicle	Yes
Bikes lockable on rack	Yes
Foldable, also loaded	Yes / up to 55°
Plug connection	13-pin
Admission	EU operating permit
Dimensions [L x W x H]	
without extension 3 rd bike	660 x 1330 x 650 mm
with extension 3 rd bike	790 x 1330 x 650 mm
folded	660 x 730 x 290 mm
Wheelbase	min. / max. 110 cm / 130 cm
Max. tyre width	80 mm ⁽⁵⁾

⁽¹⁾ Weight +/- 3%

⁽²⁾ ORIS TRACC FIX4BIKE®

⁽³⁾ Please always observe the vehicle manufacturer's maximum nose load.

^{(4) (5)} When using the optionally available long ratchet strap (50 cm) and long tyre ratchet strap (50 cm), both optionally available.

ORIS TRACC Item no. 700-102

ORIS TRACC FIX4BIKE® Item no. 710-102

ALL HIGHLIGHTS

at a glance

- » Multi-adjustable frame holders.
- » Large distance between the rim holders, optimised for the increased space requirements of e-bikes.
- » Frame and wheel straps with integrated metal band make theft more difficult.
- » Ergonomic transport of the carrier thanks to integrated carrying handles.
- » Closed design to protect the bikes from road spray and stone chipping.
- » High payload for transporting e-bikes and pedelecs too
- » Tilting mechanism with foot pedal enables easy access to the boot, even when the carrier is loaded.
- » When not in use, the 13-pin plug is secured to the carrier using a bayonet lock – no more loose cables and parts.
- » All operating elements are coloured blue. This means that no assembly step is overlooked.
- » Completely collapsible for easy handling, assembly, disassembly and storage.
- » Tool-free retensioning and automatic adjustment to the towball (ORIS TRACC). Installation with just one movement (ORIS TRACC FIX4BIKE®).
- » Carrier can be locked to the vehicle.
- » Modern lightning design.
- » Longer ratchet straps and reinforced levers
- » Larger angle for holding and reinforced clamping of the ratchets
- » Stronger magnets in the carrying handles
- » Tyre holders remain in position
- » Transport of children's bikes easily adjustable
- » Better visibility of lights and licence plate
- » More stable licence plate holder
- » New transport bag
